

Demo Account Disclosure:

Demo accounts are accounts funded with simulated money and allow traders to familiarize themselves with the tools and features of the trading platforms offered by Lydya Financial Ltd and to test different trading strategies in a risk-free environment

Although demo accounts attempt to replicate real markets, they operate in a simulated market environment. As such, there are key differences that distinguish them from real accounts; including but not limited to, the lack of dependence on real-time market liquidity, a delay in pricing, and the availability of some products which may not be tradable on live accounts.

The operational capabilities when executing orders in a demo environment may result in atypically, expedited transactions; lack of rejected orders; and/or the absence of slippage.

There may be instances where margin requirements differ from those of live accounts as updates to demo accounts may not always coincide with those of real accounts.

The Demo Account will be offered free for a period of one (1) month from the registration day so the investor can practice with no risk of loss and learn or practice with the platforms offered by Lydya Financial Ltd. After a period of one (1) month the Demo Account will be terminated by the company without any prior notice.

Results achieved on the demo account are hypothetical and no representation is made that any (real) account will or is likely to achieve actual profits or losses similar to those achieved in the demo account.
